

Health Care Reform Scorecard: A Guide to Health Care Reform Proposals in 2009

This chart is based on priorities aimed at increasing early and uninterrupted access to affordable, comprehensive, and quality health care for persons living with HIV/AIDS. This chart is intended only to give advocates a general sense of whether or not the reform proposals address our priorities in a way that would represent at least minimal progress in each area. More detailed evaluation of these proposals is presented in our health care reform analyses available at www.taepusa.org/.

HCAWG Priority	House Bill HR 3962	Senate Bill HR 3590
Increase access to Medicaid coverage.	✓✓	✓
Guarantee comprehensive, quality Medicaid benefits.		
Limit consumers' out-of-pocket costs.	✓✓	✓
Increase federal contribution to states' Medicaid programs during times of high unemployment.	✓	✓
Facilitate routine, voluntary HIV screening and counseling.	✓	
Eliminate the 2-year waiting period for Medicare.		
Protect Medicare recipients facing prescription drug coverage gaps.	✓✓✓	✓✓
Strengthen the clinical workforce.	✓✓✓	✓✓
Increase access to both public and private health care options.	✓✓✓	✓
Increase access to care by strengthening Ryan White community-based programs.	✓✓	✓

This report was prepared by staff of the WilmerHale Legal Services Center of Harvard Law School and the Treatment Access Expansion Project for the HIV Health Care Access Working Group (HCAWG). The Working Group is a coalition of over 100 national and community-based AIDS service organizations representing HIV medical providers, advocates and people living with HIV/AIDS and providing critical HIV-related health care and support services. For more information, contact co-chairs Laura Hanen, of the National Alliance of State and Territorial AIDS Directors, at 202.434.8091, or Robert Greenwald, of the Treatment Access Expansion Project, at 617.390.2584.
